## PREFACE.

THE present volume is number eight of an Alphabetical Index of the Births, Marriages, and Deaths recorded in the City of Providence, and is the fourth of a set of six volumes to contain an index of the births, marriages, and deaths recorded in this city for the years 1871 to 1890, inclusive. The present volume is the second of two volumes containing an index of the deaths for the years 1871 to 1890. It is printed from a card index which was made in 1890 and 1891. It contains an index of all deaths recorded for the years 1881 to 1890 inclusive. The death records referred to in this volume are recorded in the bound volumes of the Records of Deaths, 15, 16, 17, and 18. The record begins at page 68 of volume 15, and extends to pages 27 of volume 18.

This index contains the names of those persons who have died in this city, and of those who have died elsewhere, and have been brought here for burial, and also of still-born children. No distinction is made in this volume between the three classes of names except that of course the still-born have no Christian names; but there are some deaths of living children recorded where the death occurred before the child was named, and a blank therefore is found in the index in place of the Christian name.

The deaths in this city have always been recorded better than either births or marriages. Since 1855, when the office of City Registrar was established the record has been very nearly complete. The records of deaths are obtained under the following provisions of Chap. XLVI. of the City Ordinances:

SECTION 2. Whenever any person shall die in this city, the physician attending in his or her last sickness, shall furnish to the undertaker attending the funeral, or to the City Registrar, a certificate giving the name of the person, date of death, and the disease or cause of his or her death.

SEC. 3. No person shall bury or place in a tomb, or remove from the city or otherwise dispose of the body of any human being who shall die in this city, without first reporting the death to the City Registrar, and obtaining a permit from him.

It occasionally happens that an out-of-town undertaker may remove a body without making a return, but this is unusual and in most of these cases the

record is ultimately obtained, so that it is very seldom indeed that a death is not recorded.

Unfortunately the individual records are often far from correct. Their accuracy depends upon the care and intelligence of the undertakers, and they are often careless and often unable to cope with the difficulties of a foreign tongue. Hence it happens that the name of evidently the same person is in different records spelled in different ways. As these differences only appeared at the time the index was made and the names brought together it was manifestly impossible, in many instances, to determine which form of the name was erroneous. Hence no attempt has been made to eliminate such differences in names and spelling, except in such few instances as the requisite proof was at hand.

The following table shows the number of decedents, including still-born and non-residents, whose names are recorded in Providence, for each of the ten years, from 1881 to 1890:

	DEATHS IN CITY.	STILL-BORN.	NON-RESIDENTS.
1881.....	2,145	161	288
1882.....	2,242	162	295
1883.....	2,330	162	292
1884.....	2,233	161	263
1885.....	2,465	185	279
1886.....	2,355	179	250
1887.....	2,613	167	360
1888.....	2,611	179	319
1889.....	2,515	173	303
1890.....	2,878	166	340
	<hr/>	<hr/>	<hr/>
	21,087	1,698	2,929

Total of the three classes, 28,714.

The following shows the number of names in this volume under each letter of the alphabet:

A.....	823	J.....	554	S.....	2,315
B.....	2,589	K.....	1,027	T.....	976
C.....	2,728	L.....	1,089	U.....	47
D.....	1,684	M.....	1,031	V.....	144
E.....	390	N.....	355	W.....	1,505
F.....	1,297	O.....	678	Y.....	95
G.....	1,609	P.....	1,102	Z.....	20
H.....	2,168	Q.....	112		
I.....	76	R.....	1,292		
	<hr/>		<hr/>		<hr/>
Total.....					28,706

The number of names in the above does not correspond with the number in the preceding table for two reasons: because some records are indexed in two places on account of uncertainty as to the correct name, and a second and more frequent cause of discrepancy is because in case of twins dying without a Christian name there is only one reference in the index.

CHARLES V. CHAPIN,

*City Registrar.*

PROVIDENCE, September 26, 1898.

# DEATHS

## RECORDED IN PROVIDENCE,

FROM 1881 to 1890 INCLUSIVE.
